

Applications:

Coldset Web, Heatset Web

Higher Quality Impressions

The Vulcan® Horizon provides high-volume printers with consistent, excellent print quality.

Quick Rebound with Durability

The compressible layer and low compression-set rubber gives Horizon fast rebound at high speeds.

Quality Construction

High-density, water and solvent resistent fabric resists swelling and maintains gauge better than other manufacturer's blankets.

Technical Details:

Color: Aqua

Hardness: 70 Shore A

Blanket Construction: Closed Cell Compressible

Surface: Buffed

Water & Solvent Protected: Yes

Gauge Specifications:

 $.067" \pm .001" (1.71 \text{ mm} \pm 0.02) 3 \text{ Ply}$

 $.077" \pm .001" (1.96 \text{ mm} \pm 0.02) 4 \text{ Ply}$
